## DOLE OR HUMPHREYS JURY TRIAL POSSIBLE ON ROAD TO RECOVERY

### VINDICATION OF JUDGE WILL REMOVE OTHER

Humphreys Charges Make Sensation  
In Official Circle — President  
May Wait Till Congress  
Meets.

New York, Sept. 4.—A special to the Tribune from Washington says: The startling defense made by Judge Humphreys to the charges preferred against him by the Bar Association of Hawaii has created a decided sensation in Washington, and has given rise to considerable speculation in official circles as to what action the President will take on his return should Attorney General Knox's report vindicate the accused jurist. It is popularly inferred that the vindication of Humphreys would be tantamount to a condemnation by the Department of Justice of the whole Dole Government.

Force is given to this view of the case by the aggressive attitude assumed by Judge Humphreys since he presented his defense to the Attorney General with such elaboration of details, accompanied by counter charges against various appointees of Dole and against the Governor himself. If he should be vindicated by Knox it is not doubted that Humphreys would make a direct and forcible appeal to the President for the immediate removal of Dole, Humphreys is not a candidate for the Governorship, declaring that his sole desire is to remain on the bench of the new Territory and from this responsible position assist in establishing the American Government in the islands and in thoroughly inculturing in the minds of the conglomerate population of Hawaii correct ideas of the institutions of this country.

Whom he would urge to succeed Dole is not known, if, indeed, he has any candidate for the place, although it is known that Judge Humphreys is completely in sympathy with the insular elements that are supporting Humphreys in his fight against the Dole Government. It is also known that Judge Estee has aroused the active hostility of Dole and the Governor by his statements by which he has taken a large measure, the judicial course followed with such determination by Humphreys.

At the same time, it is known that the President has the utmost confidence in the capacity and probity of Dole, and it is considered highly improbable that he would take the summary action against the Governor which he will probably be asked to take in the event of the vindication of Humphreys. It is generally thought that the whole matter will be held in abeyance until Congress meets. Then if the President is not satisfied with the situation in the islands, he may ask Congress for authority to appoint a special commission to investigate the matter carefully and make recommendations to him.

### FOR RENT

The Only Vacant House  
IN MANOA VALLEY

Has two bedrooms and all modern improvements; \$40 a month.

Also large residence on the Waikiki Beach near the Annex; \$60 a month for seven months.

McCLELLAN, POND & CO.  
REAL ESTATE, INSURANCE, INVESTMENTS.

### JUDGE ESTEE'S RULING IN CONDEMNATION SUIT

Pearl Harbor Landowners Lose Technical Point Without Prejudice  
to Future Application  
for Right.

Judge Estee in the Federal Court this morning delivered a ruling in the Pearl Harbor naval station land condemnation cases, on the motion of the United States Government to strike out the answers of respondents the claim set up of a right to jury trial.

He granted the motion but without prejudice to the right so claimed. J. J. Dunne appeared for the Government, and F. M. Hatch, W. L. Stanley and H. A. Bigelow for different of the respondents.

Judge Estee defined what a complaint and an answer thereto meant under the law, saying that if either contained irrelevant matter it should be struck out. In the present cases he found, agreeable with the motion, that the claim for right of trial by jury was irrelevant and redundant. Therefore he made an order to strike it out. Respondents were given ten days in which to file amended answers.

The ruling and order, the court was careful to explain, did not militate against the right of respondents to request jury trials. They could make application at a reasonable time before the trials came on. If a request were not made for trial by jury the court would proceed with a hearing on the merits as soon as possible after the filing of the answers.

The Department of Justice, remarked Judge Estee, desired to have the matter closed up expeditiously. It was certain that the Government would obtain the land it required for the protection of the Territory, but it could not do so without lawful compensation. The respondents ought to be desirous of bringing the matter to a determination, because it would give them their money for the property.

Mr. Hatch, followed by the other counsel for respondents, noted exceptions to the ruling of the court.

Judge Estee, in admitting the exceptions, said: "I wish to make it clear that the court does not decide the question of jury trial, but only rules to strike out certain matter in the answers of the respondents."

### BUDDHISM SPREADING

The priests and a large number of members of the Buddhist temple will go down the road to Waipio Sunday morning for the purpose of dedicating a new temple at that place.

At the temple in this city last Sunday the special services were followed by speeches and refreshments. The services and celebration afterwards were in the nature of a farewell to Matsumoto, the assistant priest at the temple, who leaves for home soon on account of continued ill health.

The membership of the Buddhist church in the city now numbers in the neighborhood of 2500 people and there is a continual increase. The Japanese are laying plans for the spreading out of the church in the islands. The dedication at Waipio will be followed by others both on this and the other islands.

### Wound Steadily Healing

Milburn House, Buffalo, September 10.—The following bulletin was issued by the President's physicians at 10:30 a. m.:  
The condition of the President is unchanged in all important particulars. Temperature, 100.6; pulse, 114; respiration, 28.

When the operation was done on Friday last it was noted that the bullet had carried with it a short distance beneath the skin a fragment of the President's coat. This foreign material was, of course, removed, but a slight irritation of the tissues was produced, the evidence of which appeared tonight. It has been necessary, on account of this slight disturbance, to remove a few stitches and partially open the skin wound. This incident cannot give rise to other complications, but it is communicated to the public, as the surgeons in attendance wish to make their bulletins entirely frank.

In consequence of this separation of the edges of the surface wound, the healing of the same will be somewhat delayed. The President is now well enough to begin to take nourishment by the mouth in the form of pure beef juice.

P. M. Rixey, M. D. Mann, Roswell Park, Herman Mynter, Charles McBurney.

### BELIEVE HE WILL RECOVER

Milburn House, Buffalo, 5 a. m.—One of the nurses who has just come from the room reports that the President is sleeping quietly. The entire private part of the house is very quiet, with the lights burning dimly, and there is no outward evidence of any one moving about.

Lieut. Hancock of the Coast Artillery was hurt while playing polo on Saturday at Kapiolani park. Dr. McAdory of Camp McKinley was also hurt, having been struck in the face by a polo mallet.

Chief Steward Joseph Seeley, formerly of the Australia and Zealandia, has been promoted to the same position on the Ventura, and arrived with the vessel this morning. Chief Steward Clark, whom Seeley succeeded, will be given the Alameda.

## MR. DESKY BELIEVES EMPLOYERS WILL WIN

C. S. Desky drove from the steam-er Ventura direct to his office in Progress block, where he received a Bulletin reporter with his habitual cordiality. When he left San Francisco Mrs. Desky was still poorly, although having passed the dangerous crisis that had prevented his return in the Mariposa. Being asked regarding a rumor that he had more electric railroad up his sleeve, Mr. Desky answered:

"I went to San Francisco entirely on account of my wife's health. There is nothing new of a business nature to give you this time."

"The strike? It is very bad in San Francisco, but the employers are going to win. They are doing 75 per cent of normal business now."

"The President was all right the latest heard before the steamer sailed."

### JAPANESE ANGRY

Twenty Japanese employed on Bere-tania, Pensacola and other streets in the vicinity were arrested last night on the Plains on the charge of riot. Today, the charge was changed to that of disturbing the peace.

The men claim that for some time past they have been molested by Portuguese hoodlums and that on several occasions, Japanese women have been held up at night by Portuguese in the locality named.

The result was that the Japanese banded themselves together for protection. A vigilance committee of six was appointed and, at about 8:30 o'clock last night, a Portuguese boy was being investigated by the committee when another Portuguese, Cabral by name, came along on his bicycle. He stopped to assist his countryman when the Japanese started after him. Cabral jumped on his wheel and rode to the police station. In the meantime, Officer Richardson arrived on the scene and immediately the Japanese began to blow whistles. In less time than it takes to tell, the street was full of Japanese. Other officers arrived and the whole gang of Japanese was arrested.

### JURORS ALL EXCUSED

Judge Gear announced through a morning paper that grand and trial jurors would be further excused until 1:30 this afternoon. His object was to await the latest news about President McKinley. It was his impression, however, that Judge Little had a jury empaneled on a case which would not be subject to the excuse. Judge Little did not have a jury, so could do nothing when his court opened at 9:30 but take a recess until the afternoon.

The three Limalapahu brothers and Moefono, charged with assaulting a Chinaman in Manoa valley, appeared in the Police Court this forenoon. The prosecution having explained that the victim of the assault was still in the hospital, the case was further continued until Tuesday next.

### PALMER GOES HOME

Harry Palmer, the little boy who was rearrested the other day and held at the police station pending future developments, was sent away in the Sierra this morning. It seems that the police authorities received a letter from the mother of the boy, enclosing money for a ticket to San Francisco and for some clothes. Special Officer Doyle took the boy to the steamer. To a Bulletin reporter, the officer said that word had been sent to the police authorities in San Francisco to keep watch over the boy until his mother could be communicated with.

### M.P.D.

The Merchants' Parcel Delivery COMPANY.  
Delivers packages to any part of the city for 10c upwards.  
Try them. Phone Blue 621.  
Packages shipped to all parts of the United States and Europe.  
Office, 1047 Bethel St., opposite Honolulu Market.

## DR. COOPER AT HOME

RECEIVED WITH HURRAH  
BY ELKS AT MILWAUKEE

Strike Makes Bad Conditions But  
Must Soon End — Mrs.  
Cooper Returns With  
Her Husband.

Dr. Charles B. Cooper returned from his trip to the East in the Ventura, being accompanied by Mrs. Cooper from a longer absence in California. Both are looking remarkably well from their travels. To a Bulletin reporter at their home, in Alakea street, this afternoon Dr. Cooper gave an interesting sketch of his jaunt.

"I went as far as New York to see my mother, on account of whose illness I went away. I left her better."

"First I went to Milwaukee to attend the Grand Lodge of Elks. Yes, they gave me a grand hurrah. I was met at the railroad station with a band and conducted to the lodge room, where all arrangements were made for the entertainment of delegates. Throughout the convention Hawaii was remembered. Grand Exalted Ruler Fisher, who instituted the lodge here, making several mentions of the islands. I could not have been treated more courteously."

"No, I could not wait for the meeting of the American Medical Association." It will be remembered that Dr. Cooper, when tendered credentials to this convention by the Board of Health, on his resignation of the presidency before leaving, stated that it was doubtful if he could prolong his absence to attend it.

"I visited the exposition in Buffalo, and then I went to Chicago. I went to visit my old home at Middletown, New York. Returning, I joined my wife at Santa Barbara and came home with her. It was a nice trip all around."

"Of course the people were in a ferment over the condition of the President, but he is now convalescing. The strike has worked havoc all over the country, especially in San Francisco. Trains have to be guarded by policemen to protect the drivers. I had a talk with the manager of a large machine company, who said they were six or eight months behind with their orders, and if they could not get men to work they would have to shut down the works entirely."

The workmen are, however, gradually getting into line now. There must be a great deal of hardship and suffering on account of the strike. It cannot last much longer. Capital will simply shut down the mills."

### SABATE CONTRADICTED

"Have you read the Advertiser?" said C. H. Wilson to a Bulletin reporter. "You should say to that fellow Sabate, he ought to tell the truth and shame the devil. Besides David Dayton, mentioned in your report, Captain Brokaw and Duke McNichol were there and can prove that Sabate did not put in an appearance until some time after we secured the house at all, where he says he telephoned from, which shows that he is all muddled up about the affair."

The Eagles will meet for the first time in their new hall this evening.

## NEW MAIL RECORD

THIRTY DAYS TO LONDON  
FROM THE ANTIPODES

Fast Steamer Aided By Mile a Minute Trams Does the  
Log of the  
Run.

Washington, Sept. 11.—All the members of the Schuyler court of inquiry are now in Washington. Rear Admiral Howison, the third member, arriving last night. Admiral Howison was extremely guarded in answer to inquiries respecting the court. He said it would not be proper to say anything for publication in advance of the meeting of the court to his own intentions or of the line of action of the court. It was evident, however, that he has been in any degree altered his resolution to serve as a member of the court if the other members accept his own view as to his qualifications.

The following "log" of the fast trip from the Antipodes was furnished by Agent Crane of the Pacific Coast division of the N. Y. C. & P. R. R. R. With the "P" mail on board, the Oceanic Company's steamer Ventura left Sydney on August 13th at 4 o'clock p. m., and after a swift passage arrived at San Francisco at 6 o'clock p. m. on September 2d. Owing to quarantine and custom house regulations she was delayed in the harbor all night before inspections were made and the vessel docked. The mails left San Francisco at 10 o'clock the following morning over the Central Pacific and Union Pacific roads, arriving from Omaha on September 5th, and left Chicago at 10:50 p. m. on the same day over the Chicago, Burlington & Quincy Railroad. Promptly at 9:07 o'clock on the morning of September 6th the train pulled into Chicago. Here a special was ready on the Lake Shore & Michigan Southern Railway, and at 10 o'clock the run was begun to overtake the fast mail of that line. This was accomplished at Toledo, the mail transferred to No. 8, which arrived in New York as previously stated, three minutes ahead of time, or twenty-four days and fifteen minutes from Sydney, actual traveling time. As the Campanian left New York at noon yesterday, the mail will be delivered in London on September 16th, and then only by using the Lake Shore express across Europe. This shows a gain of a full day in favor of the American line. The Ventura left Auckland on August 17th, thus putting the New Zealand mail into London in twenty-six days, or about six days quicker time than could possibly be made by any other route, even if a special steamer left Auckland for Sydney and the mail was transhipped by rail to Adelaide and thence by Peninsular & Oriental steamer. This demonstrates the ample facilities for express via the San Francisco service and the impossibility of making up any time via the Suez route.

Mrs. Frank J. Turk arrived from the Coast in the Ventura.

## Common Sense

When you have a good thing, keep it. When you have worn one pair of our **BANISTER SHOES**, you know what to call for when you want another pair. Those are the kind of shoes we make it a point to keep, and we think that we have succeeded pretty well. **TRY US.**
